### Venmar Select™ Web Edition – Consulting Engineering Version Released

**Saskatoon, SK (June 7, 2013)** – Venmar CES is pleased to announce that the Engineering Version of our newly released Venmar Select Web Edition selection software is now available. This program allows Consulting Engineers to quickly and easily select all of our Light Commercial ERV, HRV and VHC products (with the exception of Vertical Unit Ventilators).

Some features of Venmar Select Web Edition include:

- New easy to use interface and Quick Select tab for rapid performance selections
- Access to energy recovery components certified to AHRI Standard 1060
- Motor horsepower selection and MCA/MOP calculations
- Ability to export equipment schedules, guide specifications and dimensional drawings
- Printed reports including submittals, guide specifications and certified performance data
- With pre-selected projects, the ability for rapid price quotes and product support from your representatives with access to all of your saved jobs

To obtain access to the Consulting Engineering version of the software, please contact your local [Venmar CES representative](#).

#### About Venmar CES

Since 1952, Venmar CES has been committed to the philosophy of designing products that are engineered for reliability and long life. As North America's leading manufacturer of ventilation products, we offer our customers a wide range of high quality HVAC solutions. From cost-effective commercial ventilation to custom-designed Dedicated Outdoor Air Systems (DOAS), we provide our customers with the most efficient heating, ventilating, and cooling packages.
